

Pedro Paças

Software Developer

SUMMARY

Creative, detail-oriented, software developer with a deep interest in AI. Have worked on projects involving building user interfaces, integrating and developing API and databases, targeting UI and Front-end specific roles. Looking to bring my skills to a tech company with global reach.

WORK EXPERIENCE

Software Developer at 100devs (Remote)

July 2022 — Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Built semantically structured full stack web applications
- Applied agile methodologies like SCRUM for project management

Recent Projects:

GitHub Stalker (Front-End API Web App) – Users can search for GitHub members and fetch their information.

Happy Notes (Front-End Web App) – Users can login to their profile and find their list of notes. They can add new notes through an input, which they can then update the state or delete all notes in their profile.

Card Game (Front-End API Web App) – Users can play with each other to draw some cards and see who's win.

Anime List (Front-End Web App) – Users can see their favorite anime story and watch some episodes.
