Pedro Paças

Software Engineer

SUMMARY

Creative, detail-oriented, software engineer with a deep interest in AI. Proven track record of creating and implementing successful front and back-end web applications. Looking to bring my skills to a tech company with global reach.

WORK EXPERIENCE

Software Developer at 100devs (Remote)

July 2021 — Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Built semantically structured full stack web applications
- Applied agile methodologies like SCRUM for project management

Recent Projects:

Happy Notes (Fullstack Web App) – Users can login to their profile and find their list of notes. They can add new notes through an input, which they can then edit or delete all notes in their profile.

Card Game (Front-End API Web App) – Users can play with each other to draw some cards and see who win

Anime List (Front-End Web App) – Users can see their favorite anime story and watch some episodes.

Other Projects: Name Guesser API, NASA API integration, On-demand background color changer for Partnered Twitch streamer, and many more
